FROM THE NCAA--MARCH

NCAA EDUCATIONAL COLUMN

- Donations to Outside Sports Clubs or Training Centers
- Date Published: March 1, 2012
- NCAA Division I institutions should note that it is **not permissible for a member institution or a member institution's booster club to sponsor or make a donation, directly or indirectly, to an outside sports club or training center (e.g., amateur club team, Olympic training center) that involves a student-athlete from that institution or any prospective student-athletes.** Further, it is not permissible to provide the names of representatives of the institution's athletics interests to an outside sports club or training center participants for the purpose of soliciting donations. However, *it is permissible for a representative of the institution's athletics interests to donate to an outside sports club or training center, provided the representative acts independently of the institution, the funds are distributed through channels established by the organization conducting the fundraising activity and the funds are not earmarked directly for a specific student-athlete or prospective student-athlete.*

NCAA INTERPRETATION

- Permissible Number of Contacts for Multisport Athletes
- Date Published: March 12, 2012
- The committee confirmed that the **maximum number of permissible off-campus contacts used by an institution for a multisport prospective student-athlete may not exceed the specific limit set forth in the contact legislation for the particular sport.** For example, if an institution's football coach and track coach contact a prospective student-athlete, the institution uses only one institutional contact; however, the track coach may not engage in more than three off-campus contacts, even if the coach makes contact on the same day as the football coach. Further, if the football coach already has contacted the prospective student-athlete on five occasions, the track coach only has one remaining contact.

NCAA INTERPRETATION

- Certification of Institutional Aid Unrelated to Athletics Ability
 - Date Published: March 12, 2012
 - The committee confirmed that an institution is not permitted to certify that a student-athlete's institutional financial aid is unrelated in any degree to athletics ability if the student-athlete's athletics participation or achievements are criteria specifically requested as part of the application process for such aid. An institution may certify that the student-athlete's aid is unrelated in any degree to athletics ability (even if the student-athlete lists athletics participation or achievements as part of his or her extracurricular activities), provided such factors were not specifically requested as part of the application process and were not taken into consideration in awarding the institutional aid to the student-athlete.
- 

NCAA INTERPRETATION

- Permissible Timing for Providing Annual Participation Awards (I)
- Date Published: March 12, 2012
- The committee confirmed that it is not permissible for an institution to provide an annual participation award (e.g., winter coats, travel blazers) to a student-athlete in a particular sport **prior to the day of the institution's final home contest** of the regular playing season in that sport.

NCAA INTERPRETATION

- Electronic Transmissions to a Nonscholastic Coach who is the Parent of a **Women's Basketball** Prospective Student-Athlete
- Date Published: March 15, 2012
- The academic and membership affairs staff determined it is not permissible for an institution to send an impermissible form of electronically transmitted correspondence (e.g., text message, instant message) to the parent or legal guardian of a women's basketball prospective student-athlete who serves on the staff of his or her daughter's nonscholastic team unless the individual also serves as a head coach of his or her daughter's scholastic team and the electronic transmission is unrelated to recruitment of his or her daughter.

NCAA INTERPRETATION

- Contact and Conditioning Activities Outside of the Playing Season
- Date Published: March 23, 2012
- The academic and membership affairs staff determined that **required conditioning activities outside the playing season** may not include contact-related drills or activities (e.g., wrestling, combative activities, blocking drills). Further, the staff determined that the use of training or resistance sleds in required conditioning activities is permissible, provided such equipment is not related to the sport (e.g., blocking sleds in football).

NCAA LEGISLATIVE UPDATE

- The NCAA released the first re-write of Bylaw 11 (personnel) and ideas for Bylaw 13 and 16.
- They are also revisiting the new initial eligibility guidelines start date. Not the actual guidelines but the effective date—looking to push back to August 1, 2016, not 2015. We should know by the end of April.
