EQUIPMENT

Equipment

NCAA recruiting legislation prohibits a CU staff member or any representative of its athletics interests (e.g., boosters) from providing apparel to a prospect (NCAA Bylaw 13.2).

- It is **NOT** permissible for CU coaches or staff to provide workout apparel (i.e., training shorts and shirt, game sweats, grey sweatshirt, black heavy coat, and long sleeve shirt) to a prospect who wishes to participate in recreational activities during their recruiting visit [official or unofficial] to CU. (NCAA Bylaw 13.2.1.1; Official Interpretation, August 25, 1994). Whether the prospect will return everything prior to his/her departure is irrelevant.
 - On-Campus Evaluation exception for basketball **only**.
- If a student-athlete (ex. host) loans a prospect apparel during their visit, the clothing must be returned prior to the prospect leaving.

Equipment

It is **NOT** permissible to loan apparel (e.g., rain jacket, winter coat) to a prospect during their official visits recruiting visit [official or unofficial] to CU.

EXCEPTIONS

- On a case-by-case basis, a prospect may be provided with necessary apparel (e.g., rain jacket, winter coat) during their recruiting visit [official or unofficial] to CU for reasons beyond the control of the prospect and the institution (e.g., inclement weather conditions, natural disaster, lost luggage, airport security activity). The staff must complete a record of the request with Equipment Office upon issuance and return of the apparel.
- CU cannot provide apparel in advance.
- If a PSA takes apparel home, it must be returned. CU will still have a violation.

Equipment

HEAD COACH SUSPENSION

- Providing apparel and/or equipment to a prospect is cause for a Head Coach suspension.
- PAC-12 reminder.

HELPFUL TIP

- Email (or call) prospects prior to their official visit with the weather forecast for Boulder.

Equipment

Student-Athlete Retention of Athletics Equipment.

- Previously a student-athlete who wanted to keep athletics equipment had to pay the fair market value. Used equipment could be purchased by the student-athlete on the same cost basis as by any other individual interested in purchasing it.
- In 2013 the NCAA changed the legislation providing institutions the discretion.
- Student-athletes may retain their athletics equipment at the end of their intercollegiate participation at no cost.

Equipment

Student-Athlete Retention of Athletics Equipment – Not a free-for-all.

- Any incoming equipment for SAs must go through the equipment room and be logged.
- The manufacturers should not be sending it directly to SAs
 - *Examples: Golf Clubs, Skis, Tennis Racquets.*

Equipment vs. Awards

- There is a difference between equipment and awards. Please coordinate with Jo for awards.
