

Student-Athlete Participation

After each competition, sport program will enter participation information into the Shared Google Document. The head coach will be responsible for determining whether each student-athlete participated in any game, contest, match, or play for that season. Additionally, the head coach will indicate if they are interested in pursuing a medical hardship for any student-athlete.

Once this spreadsheet is completed and returned to the Associate Director of Compliance Monitoring, the information will be transferred into the Participation Report. Once the data is complete, the Participation Report will be forwarded back to the head coach for review and signature. The Faculty Athletics Representative will also sign off on the participation report for each sport. All Participation Reports are kept on file in the Office of Compliance Services.
