GAMBLING

All CU athletic department staff members and student-athletes are prohibited from participating in sports gambling. As a tutor for the Herbst Academic Center, this prohibition applies to you as well.

You are considered to have participated in gambling if you risk any tangible item for a potential reward. Cash, meals, transportation and clothing are considered tangible items that are impermissible to wager on sports.

A sporting event at any level (professional, amateur, collegiate) including a sport sponsored by the NCAA (i.e. football, basketball), would be considered an impermissible event to partake in gambling.

Internet gambling, sports pools and brackets are all impermissible ways to participate in if you risk something of value.

As the NCAA constantly reminds all of their student-athlete's: DON'T BET ON IT.

Direct any questions regarding gambling to Jill or Mindy.
