

NCAA SCORING FORMAT

The current scoring format was adopted for the 1997 NCAA Championships. Citing expenses, the NCAA reduced the number of skiers in the field from over 50 to a maximum of 39 in each discipline. In doing so, the most qualifiers from a single team was cut from 16 to 12. At the same time the method of scoring a meet changed, but affecting only those schools that qualified either full 12-skier or 11-skier teams.

To tabulate the final standings, a school's low three scores are thrown out; thus, a team with 10 or fewer skiers is already counting four or more zeroes toward its team total and are thus unaffected. Teams with full 12-skier rosters drop its lowest three scores, while teams with 11 must drop one score. While every champion since the format was adopted in 1997 has skied with a full team, mathematically it is possible for a team with 11 or even 10 to win.

A day-by-day look at the NCAA Championships under the current scoring format:
